

1. K-LOVE radio is a wonderfully positive and encouraging radio station. We hardly ever have any other radio station on when we're in the car. And I never have to worry about covering my child's ears, like I would have to do with many of the mainstream radio stations.
2. If K-LOVE were displaced by an LPFM, my family and I would be very disappointed. I am sure that everyone else in the community that currently listens to K-LOVE would be equally disappointed. K-LOVE brings great joy to my household. The music, messages and prayers that K-LOVE broadcasts over its airwaves are extremely heartfelt and inspiring.
3. I believe that the service K-LOVE provides is in public interest because of the positive message they broadcast on a daily basis. Unlike the majority of mainstream radio stations on the air, K-LOVE concentrates on the positives messages that bring hope and joy to the lives of many.
